SAFE4OP

Raskov & Co. var de første i Danmark til at bruge viskoelastisk skum til aflastning på operationsbordet. I et samarbejde med Glostrup sygehus blev de første test med succes gennemført tilbage i 1985 og de positive resultater førte hurtigt til udviklingen af konceptet "Safe4OP".

Safe4OP består af en række basisprodukter samt "skabeloner", der kan udformes og udvikles til at løse nye og forskellige opgaver. Nogle produkter lagerføres, men qua det efterhånden store produktsortiment udføres mange opgaver efter ordre.

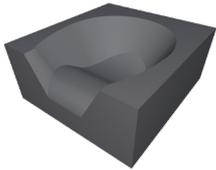

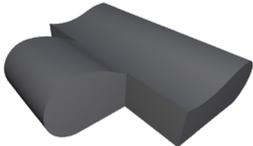

Vi ved, at jeres ønsker til lejring af jeres patienter ikke er ens og at der derfor ofte, er ønsker om emner efter mål. Sådanne ønsker hjælper vi gerne med at realisere.

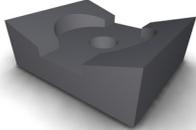

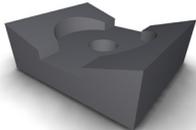

Hovedpuder / Pillows
